

Cumberland County Solid Waste Management Convenience Center Sites

Mission

- The Solid Waste Management mission is to provide for efficient use of the sanitary landfill and to further the county's efforts in developing future solid waste disposal programs which will conserve natural resources, reduce the volume, and dispose of non-recoverable wastes in an environmentally sound manner.
- The Operations Division operates the Container Sites/Recycling Centers, which collect solid waste from county facilities and provide recycling for household residents.

Convenience Center set-ups

- The following slides will show how sites are organized, how items are recycled, who uses the sites and the work in setting up the sites.

McCauley Convenience Center at Research Drive
Cardboard, newspaper and magazine recycling.

- Yard waste containers
